What the heck is Animoto?

Animoto allows teacher and students to create video presentations online with no additional software needed. All you have to do is choose your photos, videos and text, add music (either your own or from Animoto’s List), and wait a few minutes while your video is finalized. You can also post your video easily into any webpage or blog, download a video for an in-class presentation, or email it.
The first thing we want to do is to get you signed up for a student account.

Now what the heck do I do with Animoto?
MAKE A SLIDESHOW ALL ABOUT YOU!

Guidelines for your slideshow:
• Try to keep the length around 3 minutes (to do that, make your speed faster and choose a song that's around 3 minutes in length)
• Include images that represent YOU (you do not have to include a picture of yourself—that's your choice as an artist)
• Go easy on the text—let the pictures speak for themselves.

Getting your slideshow ready for the big DEBUT!
