Making a new slide in Power Point.

- **Left click** on the **home** tab.
• **Left click** on the **New Slide Icon**.
• There will be many different options for slide templates in the drop down menu that appears.

• For the purpose of this tutorial I will be using the one called Title and Content.

• **Left Click on Title and Content.**
• Your new slide will be created and you will automatically be switched over to it.
